PROFESSIONAL PROFILE

Full-Stack Software Engineer specializing in building scalable AI-powered solutions. Proven experience in the MERN stack, RAG architectures, and cloud deployment. Adept at transforming complex requirements into high-performance, user-centric software applications across EdTech, AgriTech, and FinTech sectors.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), React.js, Node.js, Express.js, Tailwind CSS, HTML5/CSS3.

AI & Data: Retrieval-Augmented Generation (RAG), LLM Integration, LangChain, Prompt Engineering, Power BI.

Databases & Tools: MongoDB, Relational DBs, Git, GitHub, REST APIs, Cloud Deployment (Vercel/Render).

SELECTED PROJECTS

Eduvance — AI-Powered EdTech Platform

- Built an interactive learning platform utilizing LLM integration to generate dynamic, story-based activities, increasing user engagement metrics.
- Deployed on Vercel with a MERN stack architecture; implemented optimized API routes, reducing data retrieval latency by 25%.

Agriion — AI Agricultural Accessibility Platform

- Developed a USSD-first web interface to bridge the digital divide for rural farmers, successfully integrating local language support and AI guidance.
- Architected a RAG pipeline using LangChain to deliver context-aware agricultural insights, achieving high accuracy in resource-constrained environments.

Dhamana POS — Retail Management System

- Engineered a full-stack POS solution for small retail, automating inventory tracking and sales recording; reduced manual reconciliation time by 40%.
- Implemented secure Node.js backend infrastructure to handle concurrent transactions and real-time inventory updates.

PROFESSIONAL EXPERIENCE & LEADERSHIP

Freelance Web Developer | Writers Admin (2026)

- Delivered a high-traffic business website using Wix with custom branding and optimized navigation.
- Ensured 99.9% uptime and streamlined user conversion flows, resulting in a measurable increase in client business inquiries.

Chess Club Leader | Moi Forces Academy

- Organized institutional chess activities, fostering strategic thinking, discipline, and collaborative growth among students.
- Promoted active participation and mentored peers, strengthening leadership and communication skills in a competitive environment.

EDUCATION & CERTIFICATIONS

Full-Stack Software Development | GOMYCODE (2026 – Present)

NVIDIA | Augmenting Language Models Using RAG (2026)

ICT Authority & PLP Africa | Microsoft Elevate AI & AI Fluency (2026)

Kenyatta University | ICDL Certification (2026)
